School-Based Health Center Registration Form

School-Based Health Centers located in Seattle Public Schools must have a signed consent from a parent or legal guardian before providing services to youth, except in situations where federal and/or state laws allow youth to access such treatment without parent/guardian consent. Youth may independently access reproductive health care at any age; they may independently receive drug and alcohol services and mental health counseling from age thirteen. If necessary, the Centers will inform youth of options for outside care and will assist the youth in discussing these issues with parents/guardians. If the youth is enrolled in school but is not enrolled in a School-Based Health Center, he/she can continue to receive school nurse services.

I hereby request and authorize that:

Print Youth's Name:

First Name Middle Initial Last Name Birthdate

receive any and all health care services available from and deemed necessary by the staff of the SBHC. These services may include, but are not limited to, such procedures as well-teen care, evaluation and treatment of acute illness and injuries, immunizations, blood studies, photographs and X-rays. Consent is also given for referral of care and if needed, emergency transportation, to other physicians, health care professionals, hospitals, clinics, or health care agencies as deemed necessary by the Center and its staff. This authorization does not allow services to be rendered without the youth's consent, unless she/he is unable to consent.

When consent is provided for care, all information is kept confidential except in the following circumstances:

1. The client gives permission through a signed release of information.
2. If he/she indicates risk of imminent harm to self or others.
3. He/she has a life threatening health problem and is under 18 years old.
4. There is reason to suspect abuse or neglect.
5. Certain communicable diseases must be reported to public health authorities.
6. Certain non-protected information such as yearly physicals and immunizations and general information regarding the healthcare you receive at the School-Based Clinic may be included in your medical record and/or shared with your primary care provider. No confidential information will be shared without the students consent.

I understand the youth's consent is legally required for release of information about the following kinds of diagnoses and treatment: pregnancy, sexually transmitted diseases (including HIV/AIDS testing), and alcohol and drug or mental health counseling.

The School-Based Health Center encourages each youth to involve his/her parents or guardians in health care decisions whenever possible.

Consent for services is authorized for the length of time the youth is enrolled in a school with a SBHC. I may choose to withdraw the consent at any time by writing to the Center that serves the youth.
